JOSIAH TURNER, Jr., EDITOR.

The following selections are the first of forts at type-setting of two apprentices ambitious of learning "the art preservative of all arts."

MASONRY.

Older than the art by which these words are presented to the reader, older than these social and legal forms which we, presumptuous mortals as we are, called civilization—older than the Greek thought—older than the pyramids, themselves its monuments—older than the most antique tradition of Zoroaster or Jannes or Jambres—old as the Ettoul Hills themselves, is the Mystic Brotherhood of the Square and Compass, Existent, through its principles in the very elements of Nature's and of Nature's God, its origin as a human organization must be referred far back within the Night of Time—back, far back to that cloudy and misty period, dim with the twilight of ages, when the angels of God came down to "hold familiar converse with men," and the earth was still virgin in its primal freshness. For they who date Masonry back only as far as the building of Solomon's temple, unquestionably err. They have not entered the inner court of its mysteries nor penetrated the sacred adytum of its holiness. Masonry had reached its symmetry as a human organization at least as early as the building of the great Egyptian pyramids, that inscrutable monument of mysteries forever to be hidden from unmasonic eyes, and which hides within its heart vaster and profounder secrets than the uninitiated can grasp. Masonry was in its full symmetry and perfection as a human organization when the bricks of the great Pyramid were still in their original elements, ages anterior to the birth of those who fashioned it. For of necessity wherever man lived, and felt within his soul the necessity of a God, there Masonry erected its temple, spread its tesselated pavements, and gathered its worshippers to the contemplation of those mysteries which none but the initiated may behold.

Masonry is the consequence of God's creation of mankind. It is not possible that there was ever a time when Masonry was not, God being God and man being as he is. For Masonry indeed is but the earliest and the strongest effort of fallen man to build anew the desecrated temple of his polluted humanity, and erect an altar wherein worship as of old could be offered to the "Ultimate Perfection whose name may not be spoken." Wherever Faith, Hope, Charity, the kindly word and the brotherly act exist, there the altar fires of Masonry blaze brightly, with their unquenchable vestal flame.

WHY NO THUNDER IN WINTER.—Prof. Espy, in his fourth Meteorological Report, thus explains why we have no thunder in the winter:

"If it is asked why we have no thunder in winter, though the tops of the storm-clouds rise even in this season to a region where the air is at least considerably charged with electricity, perhaps the answer may be found in this: that the storm-clouds in the winter are of great extent, and of course the tension of the electricity, being extended over a very large surface, is very feeble, and the substance of the cloud being itself framed out of vapor much less dense than that of summer clouds, this tension may not be able to strike from one particle of the cloud to the next adjacent one; no general discharge can take place. Besides, even in the winter, during a very warm spell of weather, with a high dew point for the season, we sometimes have a violent thunder-storm from a cloud of very limited horizontal extent, *as the thunder clouds are always in the summer.* Such a cloud is in reality an insulated pillar of hot air, mingled with condensed vapor, having just given out into the air itself its latent caloric, causing the air at the top of this cloud, in many cases, to be sixty degrees warmer at its top, than the air on the outside at the same level."

THE IMAGINATION.—Dr. Fayer, an English physician in India, communicates to the Indian Medical *Gazette* an extraordinary case of the effect of imagination on the physical system:

"Some time ago, on visiting the hospital one morning, I was told that a man had been admitted during the night suffering from a snake bite, and that he was very low. I found him in a state of great prostration, he was hardly able to speak, and seemed to be in a state of great depression. He and his friends said that, during the night, in going into his hut, a snake bit him in the foot; that he was much alarmed, and rapidly passed into a state of insensibility, when they brought him to the hospital. They and he considered that he was dying, and evidently regarded his condition as hopeless. On being asked for a description of the snake, they said they had caught it and brought it with them in a bottle. The bottle was produced, and the snake turned out to be a small, innocent lycodon. It was alive, though somewhat injured by the treatment it had received. On explaining to the man and his friends that it was harmless, and with some difficulty making them believe it, the symptoms of poisoning rapidly disappeared, and he left the hospital as well as ever he was in his life in a few hours.

ISN'T IT BEAUTIFUL?—That mad wag Prentice thus hits off reconstruction, *apropos* of the Georgia bill:

The Radical idea of reconstruction is evidently borrowed from John Robinson's circus. Those who have witnessed the performance of "the great American combination," (we mean John Robinson's) will remember how the clown knocks over the young gentleman in the gold lace and then cries out "poor fellow," and sets him up again and goes to washing him clean, as he says, with a dirty broom. Then he dusts him off with blacking brush. Then he polishes him with a rake. Then he whirls him about and asks, "Now isn't he beautiful?" That's reconstruction over and over again. Congress takes a Scalawag and knocks it down. Then it sets it up. Then it polishes it with bayonets. Then it dusts with martial law. Then, finally, if it goes Radical, like Mississippi, it says, "Now, isn't it beautiful." The people are sick of this. There is no fun in it. It is all well enough as a circus trick, but it is too serious when applied to real life.

Josh Billings has issued a supplement to his famous Essay on the Mule. Here it is in full: "The mewl is a larger burd than the guse or turkey. It has two legs to walk with and two more to kick with, and it wares its wings on the side of its head."

SAW MILLS.

I AM PREPARED TO PUT UP DOUBLE CIRcle Saw Mills in workman-like manner for those desiring them.

There are now 440 of these Mills in operation, and in no case have they failed to give entire satisfaction. One advantage of this Mill is, that the sawyer, without changing his position, gives the backward and forward motion to the carriage, with a single lever; and set the log at both ends at the same time, *this is a saving of one hand in the mill.* This is no humbug. I am responsible for what I say. My residence is 20 miles South of Raleigh, on Neal's Creek. For further particulars address me at Raleigh, N. C.

P. J. WRAY.

I will be at Lynn Adams' Store on the 2nd of the 5th of February, where persons desiring it can see me will please call.

READ THE FOLLOWING.

Mr. P. J. Wray, Dear Sir:—I am much pleased with my double Circular Saw Mill, built by you. I can cut a log 14 inches deep, 20 feet long, in 45 seconds, with my 12 feet overshot wheel. We have to-day cut 3,000 feet weather-boarding, flooring, and inch board, in eight hours.

Dec 23rd 1869. AL. BRIDGE PARTIN.

Mr. P. J. Wray:—We are well pleased with our new double action Mill, that you set to work for us. We can cut twice the amount of lumber that we could with the old Mill of 48 inch saw and same water wheel.

P. YATES.
JAMES PENNY.

This last mentioned Mill may be seen on Walnut Creek, 6 miles South of Raleigh.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, JANUARY 22, 1870.

LOUD LAUGHING LAFLIN.

Where is this carpet bag scoundrel? Is he about Five Points in New York, or drunk about Washington City? He has been among his constituents in Pitt but once in two years. He is Governor Holden's personal and political friend, and he was the Governor's State Proxy to represent the State in the North Carolina Railroad corporation. This gave him a free pass over all the Railroads of the State.

Out of the thousands of native gentlemen—out of the hundreds who have invested their money in the Road—Holden could trust no one of them, but selected this villain to represent him, the Governor, and the State in the corporation. We tell the Governor he may have regarded Laflin as a fit representative of himself and his party, but he was not of the State. If the Governor wishes to know, we will tell him why.

No decent man, worthy to be trusted, will leave his friends, kindred and home in the North, and squat in the South, in a county ruled by ignorant negroes, go into secret societies, and rely upon these deluded people for his political honors and his living at seven dollars a day.

We might here add, that no decent white man should trust such, either in personal or political matters.

We are now talking with the Governor; and telling him, the Chief Executive of the commonwealth, why he should not trust, consort, and associate with, his friend Laflin. The reason given above is sufficient why he should not trust any carpet bagger, whether it be Heaton, Dewease, Tourgee, Ashley, Brewer, Littlefield, French, Davis or Professor Martin, the brother-in-law of Brewer. But, specially, he should not trust Laflin, the member from Pitt.

I. Because, having free passes on all the Railroads of the State, by virtue of the appointment he held under your Excellency, *he gave to one of the fallen fair* his free pass on the Wilmington Road, and she presented it to the conductor. The conductor took the pass and kept it, making *Laflin's lady* pay her way.

II. Laflin wrote the President of the Road, Mr. Bridgers, that he had lost his pass and wanted another.

III. Because in what we have just stated there is lying and fraud, as well as other meanness.

IV. Laflin has been carying out that infamous carpet bagism laid down in the *Standard* of September 1868, entitled "Work."

On the Seaboard and Roanoke Road is a stout strong conductor, Drummond, whose strength is only excelled by his gentlemanly conduct, and his sympathy for virtue in distress. Prince Laflin, for such his *fallen fair* associates always call him, half drunk, insulted ladies on Drummond's train; he took the Prince in the collar and, throwing him on the other side of the car, commanded him to behave or he would throw him off the train.

If Drummond had been conducter on the North Carolina Road, we think it likely that one of the "hands" would have furnished him a job, last Saturday night.

Now, what follows may be regarded as an invasion of the social circle, but we can't help it. When Dr. Grissom invited the new Penitentiary Committee to dine with him, and then declined to seat them all at the same table, because one was a negro, we mentioned it in the SENTINEL. The Doctor took it in high dudgeon, denounced us, and denied the truth of our statement. We spoke on the authority of General Dockery, who was present, and we will meet the Doctor at any time with our witness to prove the truth of our statement.

We heard of the Governor and Prince Laflin dining out, sometime ago, at the house of a Radical native gentlemen—he may say it is none of our business, and, as a general rule, that is so, but we mean to break up the political and social relations which exist between the natives and the carpet baggers.

The honor, credit and safety of the State demand the one, and the preservation of social purity demands the other.

PRISON DISCIPLINE.

We publish, by request, the following address, signed by some seventy five prominent gentlemen, from various States, connected in one way or another with prisons, penitentiaries, work houses, houses of refuge &c., the object of which appears to be to induce the appointment from all sections, of delegates to the National Congress at Cincinnati in the autumn of the present year:

The undersigned, deeming prison discipline a vital interest of society and one of the gravest of social problems, and on both these grounds worthy of the closest study and the freest discussion, cordially unite in calling a National Congress for conference on criminal punishment and reformatory treatment, to be held in the autumn of 1870, in the city of Cincinnati, the Board of Directors of the Cincinnati House of Refuge having signified that such a Congress would be welcomed in that city. We further agree in naming as persons to act on a Committee of Arrangements for the proposed Congress: F. B. Sanborn, Gideon Haynes and Rev. Marcus Ames, of Massachusetts; Prof. D. C. Gilman, of Connecticut; Z. R. Brockway, of Michigan; Charles F. Coffin, of Indiana; A. J. Ourt and T. H. Nevin, of Pennsylvania; A. E. Chamberlain and Rev. A. G. Byers, of Ohio; and Oliver S. Strong, Theo. W. Dwight and Rev. E. C. Wines, of New York.

We recommend that the Committee of Arrangements and the Conference give consideration to the question of an International Congress on Penitentiary and Correctional Discipline.

THE GOVERNOR AND HIS STATE PRINTER.

When Littlefield heard of that clandestine lease of the North Carolina Railroad to the Raleigh and Gaston Railroad Company, last Fall, he is said to have been sorely perplexed; he could not believe that the Governor would favor it. It is reported to us that he wrote the Governor a letter on the subject, and as he placed his name to the letter, he observed to a person in the room, "this will straighten the Governor on the lease question."

This may or may not have occurred; we only tell it as we heard it. But one thing is certain; the Governor was, at first, committed to the lease, and afterward changed his opinion and went against it.

Quere—Did Littlefield "straighten" him?

Again; it was charged, publicly and privately, by the friends of the lease, that McClure, who raised the bid on the R. & G. Railroad Company, was Littlefield's agent, sent here expressly to break up the lease, and thus leave the field open for his operations in the future. We did not believe the charge at the time, but Littlefield is just the man to play such a trick.

Now, the question is, shall Littlefield and the "Ring" sell the N. C. Road? They have had that question under the hammer for about three years. God knows the Legislature has done enough for Littlefield and the Ring. It is true he has done something for the Legislature; he made some of them presents; he bought Lusiter's kildee land at $20 per acre and he treated all hands to good liquor and segars to the amount of ten thousand dollars, four thousand of which, however, is yet due Mr. Backalan.

We think it time the Legislature should cease to be so liberal with other people's property.

THE GREAT SEAL IN JAIL.

The honor, credit, and great seal of State, under the Constitution and laws, are committed more to the special keeping of the Governor than to any other one man. In his keeping the first and second have sadly suffered, and now the third lies immured in Hillsboro' jail.

The Jailer in Hillsboro' informed us last week, that John Ledbetter, a member of the League, of which the Governor is President or ex President, or head centre; was sentenced to the Penitentiary for twenty years, but, on the 18th of December past, the Governor, as is common with him in such cases, pardoned John and set him at liberty.

On the 24th of the same month, just six days after receiving the Governor's pardon, he was committed to Hillsboro' jail on a charge of arson and larceny. John, since going into his old quarters, exhibits the Governor's pardon with the Great Seal of North Carolina attached, and expresses his confidence that should he be convicted of the crimes with which he is at present charged, and Tourgee should fail to set aside the verdict of the jury, he will be able to procure a second edition of the Governor's pardon.

We are decidedly of the opinion that, should John Ledbetter be convicted of the crimes of arson and larceny, so soon after being pardoned out of the Penitentiary by the Governor, the latter ought to pay all the damage that accrued to individuals, and also, the cost of the trial.

The great seal of the State in jail!

TREATMEN OF SMALL POX.—A great discovery is said to have been recently made by a surgeon of the British army in China in the way of an effectual remedy for small pox. The mode of treatment is as follows: When the preceding fever is at its height, and just before the eruption appears, the chest is rubbed with croton oil and tartaric ointment. This causes the whole of the eruption to appear on that part of the body to the relief of the rest. It also secures a full and complete eruption, and thus prevents the disease from attacking the internal organs. This is now the established mode of treatment in the English army in China, and is regarded as a perfect cure.

The President filled the vacancy by appointing W. L. Scott, of Greensboro'.

FROM THE HOUSE.

Bill for the better protection of life and property, with amendments, asking the concurrence of the Senate.

Mr Beaman moved that the Senate do not concur.

A long thy discussion ensued. Messrs. Graham, Robbins and Scott arguing in favor of the proposition, as a vote to concur in the amendments would be substantially voting to sustain the bill as amended.

Messers. Lassiter, Galloway, col. and Shoffner, argued against the motion to nonconcur and urged the adoption of the bill as amended.

Pending its consideration the Senate adjourned until this evening at seven and half o'clock.

[This Shoffner war bill has been pretty fully ventilated through the columns of the SENTINEL. Some of the speeches to-day were able and the arguments unanswerable against the bill, but it was almost impossible to say anything new against it, after the exhaustive discussion on it since its first introduction. We may give some of the speeches on it in the Senate, yesterday, hereafter.]—ED.

INFIDELITY REBUTTED.—In the Supreme Court of Pa., yesterday, says the Daily *Alexandrian*, Judge Sharswood in the case of James against Seeswelss, decided that a charitable bequest to an infidel society is void. The decision is rendered in the case of the will of Levi Nice, who divises property for the erection of a building for the meetings of an infidel society for the free discussion of religious politics, &c., Judge Sharswood said: "It would prove a nursery of vice, a school of preparation to qualify young men for the gallows and young women for the brothel, and there is not a skeptic of decent manners and good morals who would not consider such a debating club as a common nuisance and disgrace to the city."

For the Sentinel.

OXFORD, N. C., Jan. 20, 1870.

Hon. Josiah Turner, Jr., Editor Sentinel:

DEAR SIR—The change from the old county Court system, to that of county Commissioners, Townships, &c., is very much complained of by the good citizens of Granville county, and by some intelligent Radicals. I propose to prove that the excess in the way of cost between the two systems in this county is sufficient to give us forty free schools for four months in the year. The new system of five Commissioners three Clerks and *Attorney* cost the county of Granville from the 15th of August, 1868 to the end of the year 1869, the sum of four thousand eight hundred and seventy eight dollars, in this amount is included thirteen hundred and sixty dollars for preparing the tax list of 1869 for the Sheriff; the old county Courts for the same length of time, cost less than eight hundred dollars, deduct this last amount from the $4,878, leaves the sum at $4,078, this amount will pay forty teachers $25 per month for four month. These Commissioners do less than half the work done by the old county Courts.

In the above estimates I leave out many items of expense attached to the new system and not in the old, such for example as $470 paid for registering voters, the expense of eleven Townships. I have no means of ascertaining accurately this last item of expense, but suppose it will be very large, taking the Oxford Township (the only one that has levied a tax), the amount levied in this Township, I understand, is between five and six hundred dollars. In this Township, there is no house to build, no bridge to build, and nothing we know of requiring a tax except the *per diem* of these Magistrates and their Clerks. I will suppose each Township to levy a tax of $300, there are eleven Townships in Granville, at this supposition then we add for Townships $3,300, for registering voters $470, making $3,770, a sum sufficient for thirty seven school more. There are many other small items I take no account of, such for instance as seven dollars and fifty cents paid to a colored magistrate for trying a State's warrant, and four dollars and fifty cents to a white magistrate for the same service in another case. From what I hear of the condition of the State Treasury in Raleigh, and what I know of the condition of things in Granville, that little tax of $53,000 levied upon the poor citizens of Granville will not last long enough to make out another tax list.

I find upon reference to the Finance book of Granville, that the average county tax from 1845 to 1860, inclusive, was four thousand six hundred and thirty-nine dollars, a less sum than is now paid to the five Commissioners, three Clerks and *Attorney*. I find also, from the same work, that the average balance in favor of the county was two hundred and forty-nine dollars, showing that the tax then levied, was ample for all county purposes. A part of this time a school tax of twelve hundred dollars made a part of this amount. In those days county orders were equal to gold and silver, now they are not much better than State bonds. I think these figures show conclusively that the present county governments of this State should be abolished and the old one of County Courts restored.

The enquiry is constantly being made, by what authority these Commissioners employ a legal Counsellor and pay him out of the county funds; it is also asked, by what authority the township Commissioners levy a tax where there is no public work to be done, and where the citizens have not been called on to to vote on the subject.

Now, my dear sir, is there no remedy for all this evil? There certainly is, just put us back in our old paths, where we traveled for more than a hundred years in peace and prosperity. We have no use for County Commissioners, no use for townships and these commissioners; no use for criminal Courts and these Judges; no use for five Judges on the Supreme Court Bench; no use for the citizens of other States, coming here and forcing upon us, the meanest government on the face of the whole earth, for the very best ever known in the civilized world, and above all we have no use for a Constitution and laws which the framers thereof nor any one else knows anything about.

If our present Legislature had the best interest of State at heart, I think they would meet in the Capitol next Monday morning and pass an act calling a Convention to meet in April next, and then go home and make a crop.

Most respectfully, yours,

P. A. L.

ATTRACTIONS OF NORTH CAROLINA FOR NORTHERN SETTLERS.

RALEIGH, N. C. Jan. 18th, 1870.

EDITOR OF RALEIGH SENTINEL, SIR:—Having been through most of the Southern States to observe personally, in order to know which are the best points for Northern capitalists and settlers to turn their attention, I must say that the papers of North Carolina have not said as much as they could be warranted in saying, in behalf of the Old North State. Hundreds of British and Northern farmers and artisans would come hither if they only knew of the superior advantages which North Carolina possesses from its central position and latitude. No State surpasses it in climate, variety of productions, accessibility to various markets, mineral resources and the capacities for development, of its different stores of wealth. If Northern men generally knew that they can now visit the State at reduced rates by the excursion tickets issued by the N. C. Company, and by through tickets at reduced rates, from all points, they would come here in great numbers and very many would purchase lands in the State. Numbers are now doing so daily, but there would be many more if the Northern press would publish more widely the facts here set forth.

In regard to the reception they would meet with, I can say that I have been treated with the utmost civility, courtesy, and politeness by all classes both white and colored. If people come to North Carolina for any legitimate purpose of settlement, business or travel, they will be as safe as in any part of the North. If they wish to strike up a trade, they can probably do it, either North or South. Let the over worked and poorly paid farmers and artisans of the North come here, and see with their own eyes, and I think few will care to live where the winter is six months long, when in thirty hours from New York they can be where the winter is not six or eight weeks, and mild at that. North Carolina can accommodate 100,000 families possessed of capital, say from $1,000 to $20,000 each, who in time can introduce 100,000 families more, and even then her resources will accommodate an indefinite number after that. Now is the time to come, and examine not only as to material resources, but in regard to educational and other facilities which enter into the views of Northern men when contemplating a change of residence. Information as to North Carolina, and the facilities offered by the North Carolina Company will be furnished to all who apply (sending postage for the circulars) to the undersigned.

A NEW DISCOVERY!! PHALON'S "VITALIA;" Salvation for the Hair.

CLEAR AS WATER! WITHOUT SEDIMENT!! OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time, or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜ is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.

It is a Mutual Insurance Company, ninety four per cent of the Profits are divided among the insured, on the contribution plan, and as money commands higher rates of Interest in the South than North or East, the probability is almost certain that the dividends will exceed those of Northern Companies, this reducing the premiums to their lowest actual cost.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES H. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience: men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the popular plans, and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or coastwise, in any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.

QUARTERLY MEETING.—The first quarterly meeting of the M. E. Church, for Raleigh Station, begins to day. There will be services at the Church to-day at 11 o'clock.

WANTED.—Can any one inform us whether there are any new houses to be built in the city with cellars under them; we want to suggest, in case there should be, that the clay dug out of the cellars be hauled out and put on Fayetteville street.

THE NEW STATE NATIONAL BANK.—We went through the rooms of this new building, yesterday, now nearly completed by Mr. Thomas Briggs, and after making a thorough inspection, aloft and alow, we came to the conclusion that there was "a heap o' house" on that piece of ground.—When completed, it will be fine, airy and convenient—for a family residence above, and for banking purposes below. The vault, we presume, is the strongest in the State.

THE WEATHER.—Wea. being sick, we mention, as a matter of news, that we have had several days of very disagreeable, rainy weather, the effects of which will be visible for many days, on those streets of the city that have been "improved."

"A FRIEND," writing us from Patterson's Store, in reply to the Hornaday affair, will please furnish proper name, and the communication will be attended to. We always like to know to whom we are indebted for favors of this kind; but of course we do not give the names to the public.

Any one wishing to secure a very comfortable room, can be accommodated by applying at the office of the *Episcopal Methodist*.

WARRENTON FEMALE COLLEGE.—We learn from a friend that the Warrenton Female College, under the Presidency of Rev. T. M. Jones, opens finely for the Spring session. There were some fifty in attendance on the first day, and others are continually coming in.

The College building is capable of accommodating a hundred or more comfortably, so, no fear of not gaining admission need be entertained yet. We mention this, because we learn the rumor has obtained circulation that the College is full and can take no more.

PUB. DOCS.—We are indebted to Hon. John T. Deweese, M. C., for Several public documents.

The body of a very young negro infant was dug up near this place a few days since. It is generally believed that the mother of the child destroyed it. We have not learned the verdict of the Coroner's Inquest which was held over it.—*Ridgeway Press.*

NOTICE OF APPLICATION.

Notice is hereby given that application will be made to the Legislature now in session, for an Act to incorporate the People's Building and Loan Association, of the City of Raleigh.

January 1870.

PERIODICALS &C. RECEIVED.—We are not in the habit of indiscriminately puffing every trashy Northern publication sent us, with ready made local notices pasted in them; but when we *do* notice Magazines and the like, we say of them what we believe is just and merited, and no more.—Scores of them we throw under the table and never notice them at all. We have on our table the following, which we think deserve a word or two:

The "Manufacturer and Builder," published in New York, at $1.50 a year. Next to the "Scientific American," we look upon this as the best publication of its kind that has come under our notice.

The "Riverside Magazine," Hurd and Houghton, New York, $3.50 per annum, for girls and boys, is an excellent magazine for those it is intended for, and one that older people will take interest in. Its articles are natural and the moral tone elevating.

The "Galaxy," is too well known as a publication of great merit to need a lengthy notice. It is sufficient to say it still maintains its former high character as a literary Journal.

DEMOREST, "the mirror of fashion," has taken the lead of all its contemporary publications in its line. Nothing in the way of illustrations has ever exceeded, or equaled it in this country. Few well furnished parlors are without Demorest on the centre table.

ALMANACS.—The Texas Almanac for the current year, containing a fund of information concerning the State of Texas, invaluable to all her citizens and to any others intending to seek a home within her borders.

The World Almanac for 1870.—We are indebted to Manton Marble for a copy of this useful annual. It contains much valuable information conveniently arranged, for persons in various pursuits, and especially for public men.

Public Ledger Almanac for 1870, sent as a present to all the subscribers to the Ledger.

Landreth's Rural Register, and Dreer's Garden Calendar, both useful to gardners and farmers.

Tribute of Respect.

At a regular communication of Wm. R. Davie Lodge held at the Lodge room in Lexington N. C. on the 14th of January 1870, the following preamble and resolutions were unanimously adopted:

WHEREAS, We, the members of Wm. R. Davie Lodge of Free and Accepted Masons, having heard with sentiments of deep grief, of the death of Dr. WM. D. LINDSEY, a brother Mason, a member of this Lodge, and for some time it Worshipful Master, deem it fit and proper to give some faint expression to the emotions with which we are touched by this sad event, as well as to express our appreciation of the many virtues of the deceased. Therefore,

Resolved, That we as a fraternity have heard with feelings of profound sorrow of the death of brother WILLIAM D. LINDSEY a citizen of this community, and a most worthy brother and member of this Lodge of Masons.

Resolved, That we bow with humble submission to this dispensation of the great Architect of the Universe.

Resolved, That in the death of Dr. LINDSEY, the Lodge has lost a brother and friend; a Man on who reflected credit and honor, alike upon this Lodge, as well as upon the Ancient and honorable fraternity generally, of which he was a most worthy member and an ornament.

Resolved, That in the death of Dr. LINDSEY, this community has been deprived of a physician of much learning and skill, and of a well earned reputation or talent and success in his noble profession which he adorned, not only by his professional eminence, but also by his assiduous attention to the sick, and his kindness, consideration, gentleness, courtesy and popular manners. That as a citizen he was manly and patriotic; as a friend for ever true and faithful; as a Mason, true and loyal; attached to its time honored principles; kind and considerate among an deservedly popular in his intercourse with his brethren; as a husband affectionate and tender; as a father, kind indulgent and loving; and as a christian without pretence, and that neither the breath of calumny nor the tongue of slander ever gave out its malign utterances against his fair name and fame; and that in a word, as a man he discharged his duty, in all the relations of life with credit to his country, honor to his race and with christian humility to his God, and as such we express the ardent hope that his name and virtues may long be cherished, as a bright example, and worthy of imitation by men and Masons.

Resolved, That we tender to the family of our deceased brother, our heartfelt sympathies and condolence, for this their irreparable bereavement, with assurances that as brethren we will be ready to extend to them any aid or kindness within our power.

Resolved, That as a further testimony of our esteem and regard for our deceased brother, we wear the usual badge of mourning for 30 days.

Resolved, That the preamble and the above resolutions be spread on the Secretary's Book of this Lodge.

Resolved, That the Secretary furnish a copy of the above to the family of the deceased, and that he also send a copy to the Raleigh SENTINEL and Raleigh *Standard*, for publication, with a request that other papers copy.

KEROSENE LIGHTS PERFECTED!

DANFORD'S

Atmospheric

KEROSENE LAMP.

THE ONLY PERFECTLY SAFE LAMP IN USE.

Artificial Light, of some sort, is a universal necessity; a safe, cheap, and brilliant one is a luxury; a luxury, too, only enjoyed heretofore by those living in large towns or cities where Gas is used. Years of study and thousands of dollars annually have been spent by experiments of different kinds, in trying to invent and perfect a Burner or Lamp by which Coal Oil or Kerosene could be burned practicably, without the expense and trouble of chimneys; this long looked for and much desired subject has at last been obtained, and is styled the

ATMOSPHERIC - KEROSENE LAMP!

Its adaptation to Dwellings, Churches, Railroads, Steamboats, Hotels, Stores, &c., is unsurpassed; in short, this invention brings the luxurious and brilliant Gas Light within the reach of all, whether in the City or Country. It gives the light of a six-foot Gas Burner, for less than one cent per hour, or double the quantity of light, of the ordinary chimney-lamp with one third less oil; will burn, when turned down to a taper light ten hours for one cent; is free from smoke or smell; can be carried from room to room; the wind will not blow it out.

This Lamp is destined to supersede all portable artificial light or chimney lamps now in use and needs only to be seen to be appreciated; thousands of them will find ready sale in every county, no family that sees this light for one evening will again be annoyed with the chimney-lamps Thousands of them will be used in cities, as this light is one-half cheaper than Coal Gas, and much more pleasant to the eye.

The sole right for the sale of this Lamp can be had for the entire State or the same will be sold by Counties.

Parties purchasing will be supplied, at wholesale, with the lamp and fixtures at reasonable rates.

Immediate application should be made to secure the choice of Counties.

The Lamp can be seen in full operation durning the day and evening at the Yarbrough House.

All letters will receive prompt attention and full explanation of the Lamp given.

Thursday Night Dispatches.

WASHINGTON.

WASHINGTON, Jan. 20.—Revenue to-day $300,000.

The Gold Committee, to-day, examined Chas. J. Osborne and Mr. Beecck in reference to the late panic. The Treasury books show that receipts are light, and expenditures heavy, as compared with the last four months.

Dispatches received from Jackson, Miss., announce the election of Revell, who is said to be a full blood negro; he is elected to the United States Senate for the short term, ending 1871; Ames for term ending 1875 and Alcorn for term ending 1875.

HOUSE.—Bingham introduced a bill making it an offence punishable by fine and imprisonment for any person to propose a repeal of the ratification of any proposed amendment to the Constitution.

A Preamble and Resolution was introduced declaring the absence of constitutional authority to acquire territory without the consent of the House.

The League Island bill was resumed. Dawes and Schofield had a sharp controversy, involving their mutual political veracity and honesty.—The House passed the military academy bill.—The balance of the day was consumed by the Committee on Printing.

In the Senate the Virginia bill was resumed.—The following amendment of Mr. Wilson was defeated without division: "That the constitution of the State shall never be so amended as to deprive any citizen or class of citizens of the United States of the right to vote or to hold office, who are now entitled under said Constitution, except in punishment of crime, nor exclude from service as juror, any person on account of race, color, or previous condition of servitude." The amendment was not agreed to. Drake renewed the amendment previously offered by him, admitting Virginia to representation in Congress on the following fundamental conditions: "That the State constitution shall never be changed to deprive any citizen or class of citizens, of the right to vote, who are now entitled to vote, except in punishment of such crimes as are now felonies at Common Law, whereof they shall be duly convicted, under laws equally applicable to all inhabitants of said State, provided, that any alteration of the State constitution prescribed in its effect, may be made in regard to time and place of voters."

The argument on Drake's amendment was continued at great length, the Senators displaying much contradictory historical knowledge regarding terms and conditions whereby Virginia alienated the Northwestern territory. Several opponents of the amendment were driven into its support by legal and historical quibbles.—The Senate adjourned at half past five. A vote was about being taken at four o'clock, when Howard sent a long dispatch regarding the condition of affairs in Georgia; Howard refused to name the author. Morton said he had received similar messages containing assertion that large funds had been raised to defend persons against the charge of perjury.

FOREIGN.

HAVANA, Jan. 20.—Seward was serenaded by the troops, several thousand people assembled. Seward complimented the people on the improvements they had made since his former visit, &c., &c.

[We omit the market quotations of Thursday night, because those of yesterday are later and consequently more satisfactory.]

Friday Evening Dispatches.

WASHINGTON.

WASHINGTON, Jan. 21.—A Democratic Caucus was called to consider the proposition that the democratic members of the Election Committee withdraw. The caucus decided it was the duty of members to remain to watch and protest against the partisan action of the majority of that committee.

The Senator elected from Mississippi is a native, but was educated in Ohio. he was formerly elected to the State Senate from Natchez. He is elected to fill the term of Gov. Sharkey which expires in 1871.

Schenck gave notice that the Committee on Ways and Means would introduce a tariff bill next week.

The consideration of private bills was resumed.

In the Senate the abolition of the franking privilege was discussed.

The Judiciary Committee of the House agreed to report resolutions that Judge Watson, of Texas, may be allowed to resign with salary during life, if he declines to resign the President may appoint an Associate Justice.

The Mississippi Legislature adopted a resolution memorializing Congress to remove the political disabilities from all citizens of the State. The resolution will be presented to the Senate by Revel. Senator elect, with credentials.

Ohio and Iowa have fully ratified the 15th amendment.

HENRY'S

CARBOLIC

CONSTITUTION RENOVATOR,

OR

BLOOD CLEANSER.

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with other valuable medicinal herbs, and is guaranteed as chemically pure,

FOR THE CURE OF

SCROFULA AND CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all impurities, going at once to the fountain-head of disease. It extinguishes

Tumors, Consumption, Syphilis, Skin Eruptions, Salt Rheum, Boils, Rheumatism, Waste of Vitality, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war bred the most villainous diseases. Vaccination pus was taken from the arms of many persons full of scrofulous sores.

Then of course the impurities of the scrofulous patient were absorbed in the blood of men otherwise without disease, and both be same infected alike. Men, women and children throughout all the West are most woefully diseased from this cause, and knew not, until a few months ago, the origin of it.

Henry's Constitution Renovator

Relieves the Entire System of Pain and aches, enlivens the spirits, and sends new blood

BOUNDING THROUGH EVERY VEIN,

It imparts a

Sparkling Brightness to the Eye,
A Rosy Glow to the Cheek,
A Ruby Tinge to the Lips,
A Clearness to the Head,
Brightness to the Complexion,
Buoyancy to the Spirits,
And Happiness on all Sides.

For all affections of the kindneys it is unsurpassed.

People have been rescued, as it were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"Doctor, I was vaccinated in the hospital.—Before that I had no skin disease. Until I had a bottle of your "Constitution Renovator" sent me by Mr. Roper, of Columbia, Mo., I suffered tortures with running sores. Since I used two bottles I am all well except a small sore on the calf of my left leg, and that is getting well fast."

This from a lady.—"And now my skin is as clear and fair as a baby's. My complexion, thanks to your "Renovator," is beautiful.

"Yes yes, I may well say such relief was unknown to me before. Enclosed find five dollars for six bottles, two families here want to try it."

"I was very much troubled with syphilis.—Your remedy seems to be curing me fast. Send 4 bottles per Express."

"No more rheumatism. Three bottles of Constitution Renovator have made me a new man."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator."

We have not space for more of the above extracts, but you can ask your neighbor about the remedy. Every one has something good to say, as it cures every time.

FOR ALL DISEASES OF THE

KIDNEYS, RETENTION OF THE URINE, &c.

And for Female Diseases,

Nervous Prostration, Weakness, General Lassitude, and Want of Appetite, it is unsurpassed.

CAUTION!—In ordering our remedy always place the number of our Post-Office Box on your letters. The new law in our New York Post-Office compels this.

PRATT'S "ASTRAL" OIL.

UNLIKE MANY OTHER ILLUMINATING Oils, *is perfectly pure*, and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliant light, and can be used with the same assurance of safety as gas. Chemists pronounce it the *best* and *safest* illuminating Oil ever offered to the public; and Insurance Companies indorse and urge upon consumers the use of the "Astral" Oil in preference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. *To prevent adulteration*, the "Astral" Oil is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited. Every package with uncut seal we warrant. Be sure and get none but the genuine article, Pratt's "Astra." Oil, for sale by dealers everywhere, and at wholesale and retail by the proprietors

The following extracts from certificates received from those who used it last year upon Cotton will have the effect to remove the prejudice produced by the use of manufactured fertilizers, and give confidence in this home made article.

H. Leberman, Esq., of Bertie county N. C., writes: "I have used your Phosphate Fish Guano in equal quantities side by side with Peruvian Guano and found the product much in favor of your article, the weed was larger, Cotton heavier and the plant kept green through the dry Summer.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,34
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 582 policies, received an income of seventy-eight thousand dollars, and possessed net assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
